What are our Solutions?

Each TalentClick report contains **actionable feedback** and recommendations to help you make better people decisions. All of our assessments uncover **strengths AND risk areas** through our proprietary predictive analytics.

AVP (Attitude-Values-Personality)

Our core bundle takes only 10-15 minutes and generates multiple reports with tailored interview questions & performance management tips for better job fit. The AVP includes: WPP, WVA & SQ/DSQ

Leadership Profile

Help hire, train & develop an organization's most valuable asset - its leaders. The LP measures workstyle, business reasoning ability & conflict management style.

Workstyle & Performance Profile

Reveal workstyle, strengths & areas for improvement. The WPP can be used for hiring & development, leadership identification, succession planning & more. *(Specialized products for sales, insurance & retail.)*

Cognitive Quotient

Assess front-line workers to measure verbal, numerical & spatial reasoning. The CQ ensures workers have the cognitive capacity required for the role.

Work Values & Attitude

Measure an individual's values to assess whether they are a cultural fit for your organization. The WVA measures conformity, responsibility, positivity & more.

English Proficiency

Measure an individual's ability to review written English, use correct grammar, understand the meaning of words & type error free sentences.

Safety Quotient™

Identify the high-risk personality traits that lead to human error & preventable workplace incidents. The SQ measures distractibility, impulsiveness, rule-resistance & more.

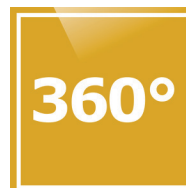

Sports Performance Profile

Create more cohesive & productive teams by getting your athletes to understand & support one another on a deeper level. Coach & athlete versions available.

Driver Safety Quotient™

Gain insight into a driver's likelihood of crashes, near misses, traffic violations, and more. The DSQ helps ensure safer roadways for everyone.

Leadership 360°

Get feedback from your managers, peers & subordinates to get a well-rounded picture of a leader or manager's work performance.
